

FOCUS STICK 120 E PFC

Reliable single-phase MMA inverter
welding machine - perfect for on-site welding

Focus Stick 120 E is suitable for both workshop and outdoor use; it is the ideal machine for maintenance and minor welding operations.

- Very handy, very lightweight – only 4.9 kilograms
- Stable arc
- Only one knob – simple to operate
- Allows simple TIG welding

FOCUS STICK 120 E PFC

HANDY AND MOBILE WELDING MACHINE WITH OUTSTANDING IGNITION PROPERTIES

The Focus Stick 120 E is a small, handy and portable MMA welding machine designed for DIY repairs.

Focus Stick 120 E has excellent ignition properties ensuring a stable arc and it welds with most types of electrodes up to 3.2 mm.

For even more flexibility, you have the option of plus or minus polarity on the electrode clamp. Simple TIG welding with scratch ignition is also possible.

Focus Stick 120 E is a mono-phase (230 V) machine featuring PFC (Power Factor Correction), which allows you to weld with a long mains cable or with a generator as power source.

ACCESSORIES

- electrode holder including 3 m cable
- 3 m earth cable
- carrying strap
- 16 A Schuko plug

OPTIONAL EQUIPMENT

- TIG Ergo 101 torch 4 m hose (80392615)
- Focus welding helmet (81910900)

Control panel for Focus Stick 120 E

Focus Stick 120 E is designed for DIY repairs

POWER SOURCE	FOCUS STICK 120 E PFC
Current range, A	20 - 120
Mains voltage *), V +/- 10%	1x230
Fuse, A	16
Duty cycle 20°C/100%, A/V	120
Duty cycle 20°C/60%, A/v	120
Duty cycle 40°C/100%, A/V	65/22,6
Duty cycle 40°C/60%, A/v	95/23,8
Open circuit voltage, V	95
Protection class	IP 23S
Norm	EN/IEC60974-1, EN/IEC60974-10
Dimensions (HxWxL), mm	230x150x330
Weight, kg	4,9

*) The machine enables down to -40% by reducing the max. amperage.
